

# Enerco Group, Inc.

## Mr. Heater / Heatstar

There are three separate and non-interchangeable **Control Valves** used on the Portable Buddy (MH9B) heaters. When ordering a replacement valve, you must supply the valve number that is cast into the main valve housing, to receive the correct valve.

The Valves are:

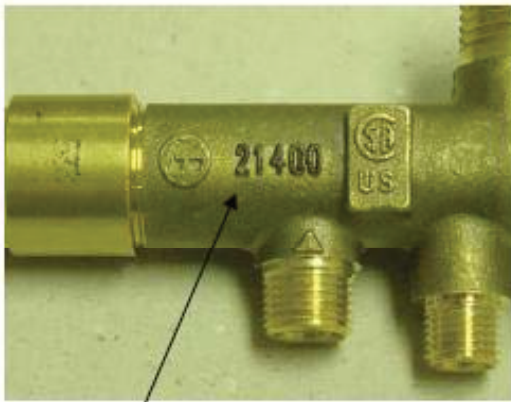

Fig. 1 Part #73416  
Casting #21400

Fig. 2 Part #73482  
Casting #MH9B03

Fig. 3 Part #73983  
Casting #SV11  
No longer available

Fig. 4 Part #73492  
Casting #18700

You will need to identify which one of these regulators you have.

Precimex # 11410    Chant # 11409
